Revised Prototype

Critical Revision 1: New card panel

Old version:

Coded in each screen, hard to maintain

Redundant overlay without quick view of info

New version:

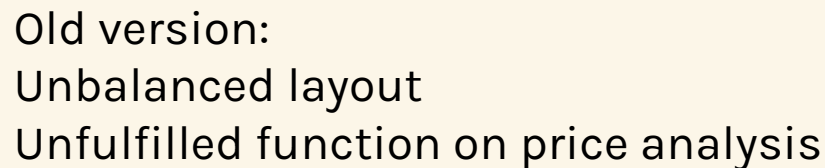

Integrated into one widget

Providing critical information

Clear difference to tell functions of each button

— □ ×

New version:
Balanced layout
More analysis

Critical Revision 3: item page

Old version:
Picture of the item is too small
Price info too large

New version:
Focus on item and seller
Enlarged info display

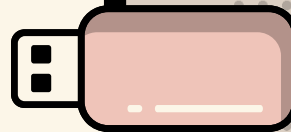

Other revision: minor adjustment

- Searching format hint
- Unfulfilled features implemented
(e.g. Recommended cards filter, return buttons, ...)
- Lots of bugs fixed
(e.g. Preference modification, scrolling functions, ...)
